

GLUTANEX

Glow Therapy Gel-To-Foam Cleanser

Experience a multi-functional cleanser that goes from a rich gel to a foam made of microbubbles. These microbubbles gently exfoliate, leaving your skin refreshed and smooth.

PRODUCT HIGHLIGHT

Microbubbles for Deep Cleansing and Gentle Exfoliation

Naturally forming microbubbles penetrate deep into pores, removing impurities and providing a refreshing cleanse. Infused with AHA, BHA, and LHA, this cleanser ensures your skin is left healthy and smooth.

Advanced Exfoliation with Clinically Tested Results

Trust in a product backed by scientific research. The Glutanex Glow Therapy Gel-to-Foam Cleanser not only delivers visible exfoliation results but does so gently and safely.

Clinically Proven to be Gentle on Your Skin

Enjoy the powerful exfoliation benefits of our cleanser without worrying about skin irritation. Tested and confirmed to be safe for even the most sensitive skin types.

89.3%
exfoliation effect

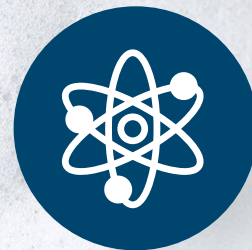

89.33% Improvement in Flaky Skin Removal (exfoliation) in Just 2 Weeks

Our clinical trials show that Glutanex Glow Therapy Gel-to-Foam Cleanser significantly enhances skin smoothness and texture by effectively removing flaky skin.

natural massaging effect of microbubbles

Apply to your skin and wait for about 30 seconds. The fine white bubbles will form naturally, providing a gentle massage effect. With dampened hands, softly massage your face to help remove dead skin cells and pore-clogging impurities, leaving your skin feeling hydrated and refreshed.

triple synergy of AHA, BHA, and LHA

This cleanser features three powerful exfoliating ingredients. AHA softens dead skin cells, BHA safely removes them, and LHA gently dissolves keratin while caring for your pores, making it suitable for sensitive skin. Together, they ensure your skin is smooth and hydrated.

clinically proven gentle cleanser

Safe for sensitive skin, this cleanser is clinically proven to provide significant exfoliating effects without causing irritation.

Key Ingredients

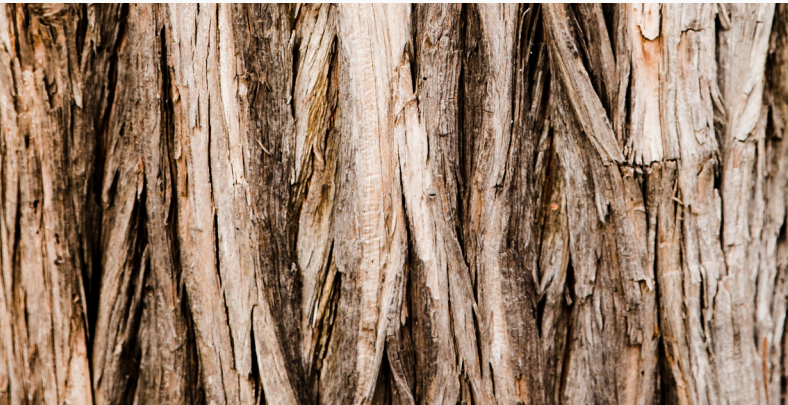

Citric Acid (AHA)

Derived from fruits, this natural ingredient helps to shed dead skin cells and refine skin texture, leaving it smooth and renewed.

White Willow Bark Extract (BHA)

A natural source of salicylic acid, it gently exfoliates while preventing moisture loss, helping to keep your skin hydrated and soft.

Capryloyl Salicylic Acid (LHA)

Less irritating compared to other exfoliants, this ingredient is ideal for sensitive skin. It gently dissolves keratin and cleanses pores, promoting healthy skin.

Derma Clear Complex

A patented blend of ginkgo leaf extract, mugwort extract, and fig extract. This complex boasts strong antibacterial properties, effectively removing demodex and acne-causing bacteria.

How To Use

STEP
1

Apply an appropriate amount to dry skin, spreading it thinly like a mask.

STEP
2

Wait 10–30 seconds for the bubbles to form naturally. With dampened hands, gently massage your forehead, cheeks, chin, and nose.

STEP
3

Rinse off with lukewarm water.

The background is a light gray surface covered with numerous small, realistic water droplets of varying sizes. A large, white, cloud-like or splash-like shape is centered on the page, creating a frame for the text.

Moisture-Rich Gel Type

Easy to spread smoothly over your
skin, ensuring a comfortable and
thorough application.

Transform your skincare routine with the Glutanex Glow Therapy Gel-to-Foam Cleanser, for a deep, yet gentle cleansing experience.

Enjoy smoother, healthier skin with every use.
