

Ingredients Statement – ReMedium PDRN (Mexico Packaging) by Forever 18 International:

The Forever18 International Co., LTD, located in #1001, Daegil Medical Building, 384 Sagajeong-ro, Jungnang-gu, Seoul, South Korea, **verifies content** as below:

The **ReMedium PDRN** formulation, as presented in the Mexico packaging by Forever18 International, features a scientifically balanced combination of active ingredients designed to support skin regeneration, hydration, lifting and revitalization:

PDRN (Polydeoxyribonucleotide) – 165mg (7.5%): A DNA-based compound that stimulates tissue repair and cellular regeneration, promoting firmer, healthier-looking skin.

NAD (Niacinamide) – 55mg (2.5%): A potent form of Vitamin B3 that helps improve skin tone, reduces inflammation, and enhances the skin's protective barrier.

HA (Hyaluronic Acid) – 44mg (2%): Contains both low and high molecular weight hyaluronic acid to deliver deep, long-lasting hydration and visibly smooth skin texture.

The Mexico packaging reflects the high standards of quality and consistency maintained by Forever 18 International, ensuring safe and effective use for professional skin care applications.
