

GLUTANEX

GLOW THERAPY TONER PAD

Triple exfoliation, deep hydration,
and daily soothing care in one pad.

INTRODUCTION

Triple Exfoliation with AHA · BHA · LHA

Glow Therapy Pore Pad combines AHA, BHA, and LHA in an ideal ratio for triple exfoliation care, effectively clearing not only surface-level dead skin but also deeply embedded sebum and impurities within pores.

AHA (Citric Acid)

gently dissolves visible dead skin on the surface, refining skin texture.

BHA (Willow Bark Extract)

known for its oil-soluble properties, penetrates deep into pores to clear out sebum, making it excellent for pore care.

LHA (Capryloyl Salicylic Acid)

is a mild exfoliant suitable for sensitive skin.

TEST RESULTS

Clinically Proven Performance

Glow Therapy Pore Pad has completed five types of clinical tests to ensure both visible skin improvements and safety:

Acne-prone skin suitability test confirms it's safe for troubled skin.

Low irritation test proves it's safe for daily use, even on sensitive skin.

Dark spot and hyperpigmentation reduction test showed improvements in clarity and evenness of skin tone.

Pore care and exfoliation test confirmed that even a single use effectively removes impurities and dead skin from pores.
